Chapter 1

Introduction

1.1 Project Overview

About InternshipWala

InternshipWala (www.internshipwala.com) is India's leading online internship training platform, registered under the **Ministry of MSME, Government of India** and accredited by **International Accreditation Services (IAS)**. The platform connects students from engineering, MBA, BCA/MCA, and various other streams with industry-relevant training programs.

The InternshipWala web application is designed to provide a comprehensive online learning and internship experience. It supports two primary modules:

- **Admin Module** — Full control panel for managing courses, students, payments, certificates, jobs, and site content.
- **User (Student) Module** — Dashboard for students to register, enroll in courses, access learning materials, track progress, and download certificates.

1.2 Purpose of this Document

This document provides a complete technical and functional description of both the **Admin Module** and the **User Module** of the InternshipWala website. It covers:

1. System architecture and technology stack
2. Module-wise functional specifications
3. User roles and access permissions
4. Workflow and process flows
5. Database entity relationships
6. Use case descriptions
7. Interface descriptions for key pages

1.3 Scope

tablehead	
Platform URL	https://www.internshipwala.com
tablerow Target Users	Students (Engineering, MBA, BCA/MCA, Arts, Commerce), Admin Staff
Primary Language	English (Hindi support partial)
tablerow Access Modes	Web Browser (Desktop and Mobile)
Backend Technology	PHP, MySQL
tablerow Frontend Technology	HTML5, CSS3, Bootstrap, JavaScript
Deployment	Cloud-hosted Web Server

1.4 Definitions and Abbreviations

tablehead	
Admin	System administrator with full platform access
tablerow User/Intern	Registered student using the platform
Dashboard	Personalized overview page post login
tablerow LMS	Learning Management System
OTP	One Time Password (used in verification)
tablerow MSME	Ministry of Micro, Small and Medium Enterprises
IAS	International Accreditation Services
tablerow PHP	Hypertext Preprocessor (server-side scripting language)
MySQL	Relational Database Management System

Chapter 2

System Architecture

2.1 Technology Stack

Tech Stack Summary	
Frontend	HTML5, CSS3, Bootstrap 4/5, JavaScript, jQuery
Backend	PHP (server-side scripting)
Database	MySQL (Relational Database)
Server	Apache/Nginx (Linux hosting)
Email	SMTP (for OTP, notifications, certificates)
Payment	Integrated Payment Gateway (Razorpay / PayU)

2.2 System Architecture Diagram

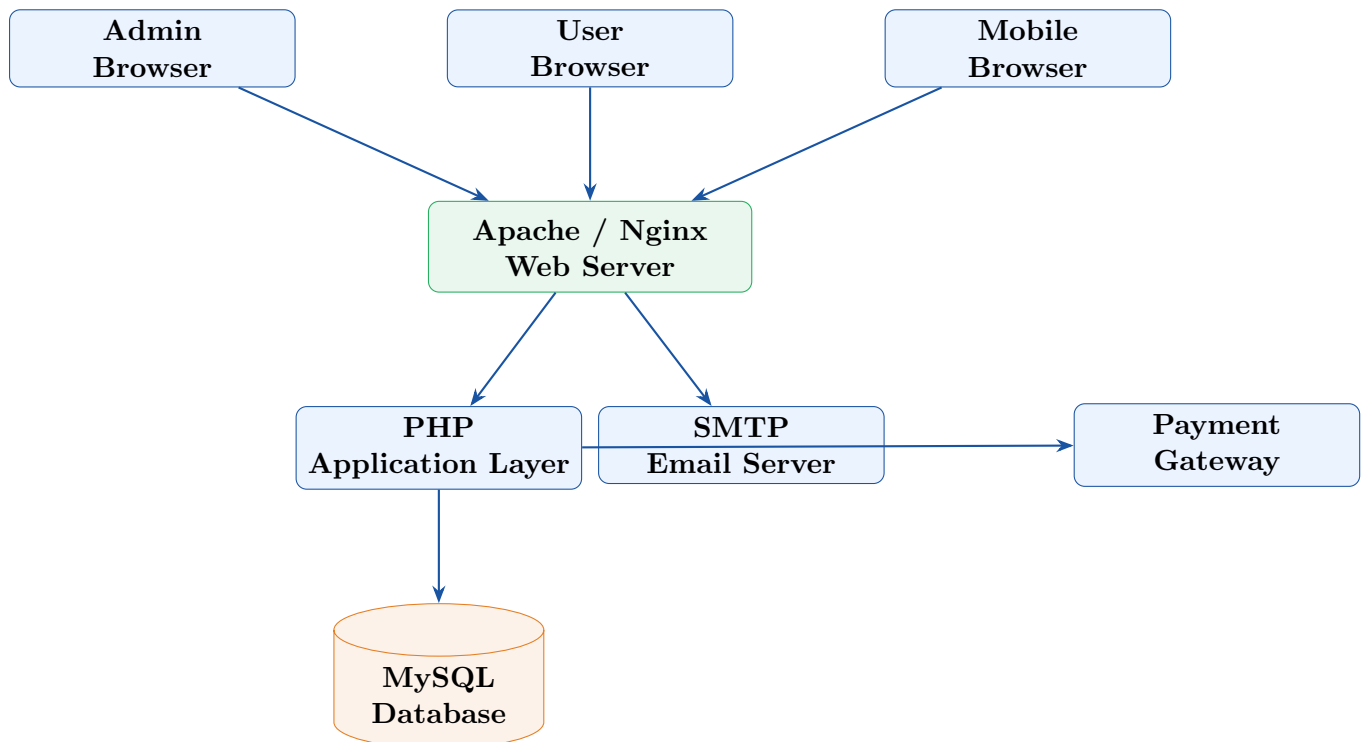

Figure 2.1: InternshipWala System Architecture Diagram

2.3 Module Overview

The application is divided into two major modules with distinct access levels:

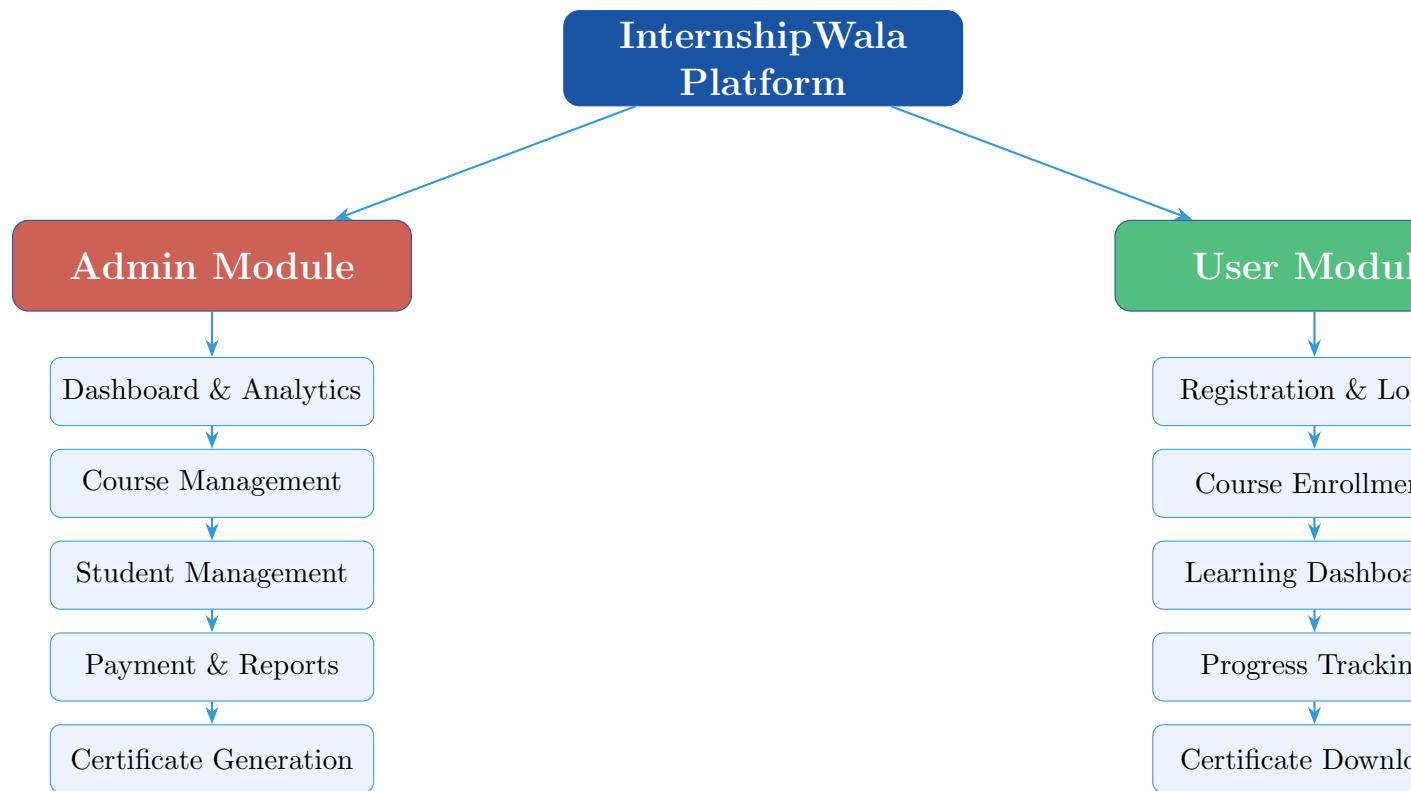

Figure 2.2: Module Hierarchy of InternshipWala

Chapter 3

Admin Module

3.1 Overview

Admin Module

The **Admin Module** is the backend control panel of InternshipWala. It is accessible only to authorized administrators and provides complete control over all aspects of the platform including courses, students, payments, job listings, certificates, and website content management.

3.2 Admin Login

3.2.1 Login Process

The admin accesses the control panel via a secure login URL (typically `/admin` or a private URL).

1. Admin navigates to the Admin Login Page.
2. Enters registered **Email ID** and **Password**.
3. System validates credentials against the database.
4. On success: redirected to the **Admin Dashboard**.
5. On failure: displays error message — *"Invalid credentials, please try again."*

3.2.2 Security Features

- Password hashing (MD5/bcrypt)
- Session-based authentication
- Auto logout on session expiry
- CSRF token protection on forms

3.3 Admin Dashboard

The Admin Dashboard is the main control screen after login. It provides a bird's-eye view of platform statistics.

3.3.1 Dashboard Widgets

tablehead	
Total Students	Count of all registered users on the platform
tablerow Active Enrollments	Number of currently enrolled students in courses
Total Revenue	Cumulative revenue from paid enrollments
tablerow Pending Payments	Payments pending confirmation
Certificates Issued	Total certificates generated and issued
tablerow New Registrations	Students registered in the last 7/30 days
Job Listings	Total active job and internship listings
tablerow Courses Active	Number of active course offerings

3.4 Course Management

3.4.1 Course Categories

The admin manages courses across multiple department categories:

- Computer Science & Engineering (CSE)
- Mechanical Engineering
- Civil Engineering
- Electrical Engineering (EEE)
- Electronics Engineering (ECE)
- Management (BBA/MBA)
- Arts, Commerce & Sciences
- Emerging Technologies (AI/ML, Data Science, Cloud)

3.4.2 Course CRUD Operations

tablehead	
Add Course	Create new course with title, description, duration, fee, and modules
tablerow Edit Course	Modify existing course details, pricing, duration options
Delete Course	Remove course from listing (soft delete)
tablerow Publish/Draft	Toggle course visibility on the public website
Add Modules	Upload lecture content, PDFs, and video links per course
tablerow Set Duration	Configure multiple duration options (2/4/6/8/12 weeks)
Set Fee	Define pricing for each duration variant
tablerow Add Assignments	Create quizzes, assignments, and practice tests

3.4.3 Course Duration Options

The admin can configure flexible duration options for each course:

tablehead		
Short Term	2–4 weeks	Single-tech courses (PHP, Java, C/C++)
Medium Term	6–8 weeks	Web Development, PLC, Building Construction
Long Term	12–15 weeks	Full Stack, Certified Web Developer
Professional	6 months	Certified Web Professional, Certified Web Architect

3.5 Student Management

3.5.1 View and Search Students

- View complete list of all registered students
- Search by name, email, college, or enrollment ID
- Filter by course, status (active/completed/pending), and registration date
- Export student data to Excel/CSV

3.5.2 Student Operations

tablehead	
View Profile	Access complete student profile and personal details
Edit Details	Update student information if required
Approve Enrollment	Manually approve enrollment after payment verification
Disable Account	Block a student account for policy violations
Reset Password	Trigger password reset for a student
View Progress	Monitor module completion progress
Send Notification	Send SMS/email to individual or bulk students

3.6 Payment and Revenue Management

3.6.1 Payment Verification

1. Student pays through the payment gateway or bank transfer.
2. Admin receives a notification or views pending payments.
3. Admin verifies transaction ID and amount.
4. Admin marks payment as **Confirmed** / **Rejected**.
5. On confirmation: course access is activated for the student.

3.6.2 Revenue Reports

- Monthly and annual revenue summaries
- Course-wise revenue breakdown
- Payment mode analysis (online vs offline)
- Outstanding and pending fee reports
- Export reports to PDF or Excel

3.7 Certificate Management

3.7.1 Certificate Generation Flow

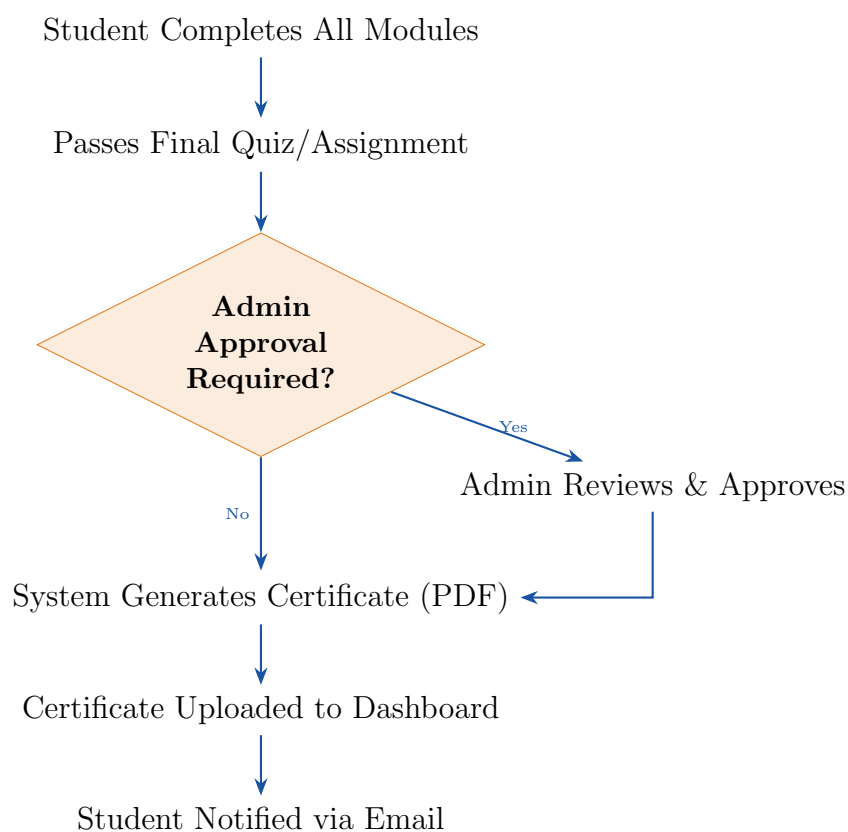

Figure 3.1: Certificate Generation Workflow

3.7.2 Certificate Features

- Auto-generated PDF certificate with student name and course title
- Unique Certificate ID / Verification Number
- IAS accreditation seal embedded
- QR code / verification link

- Hard copy available on request (with applicable fees)
- Certificate available directly from student dashboard

3.8 Job and Internship Listings Management

The admin manages the **Jobs** section of the website, which includes:

tablehead

Paid Internships	Internship training programs offered by InternshipWala
tablerow Job Listings	General job postings from partner companies
Teaching Jobs	Openings for teaching/faculty roles
tablerow Corporate Jobs	Industry-level job listings
Overseas Jobs	International job and study-abroad opportunities

3.8.1 Listing CRUD

- Add new job/internship posting with title, description, eligibility, and deadline
- Edit existing listings
- Expire/archive old listings
- View applicant list for each listing

3.9 Content Management

tablehead

Homepage Banners	Upload/change promotional banners and carousel images
tablerow Testimonials	Approve/edit/delete student testimonials
About Us / Pages	Edit static pages (About, Board Members, Terms)
tablerow Study Abroad Info	Manage Study Abroad program details and partnerships
FAQs	Add/update Frequently Asked Questions
tablerow Announcements	Post alerts/notifications for all users

3.10 Admin Notification System

- **Bulk Email:** Send course updates or announcements to all students.
- **Individual Email/SMS:** Targeted communication per student.
- **System Alerts:** New registrations, pending payments, course completions.

3.11 Admin Module — Use Case Summary

tablehead		
UC-A01	Admin Login	Secure authentication to admin panel
UC-A02	View Dashboard	View platform statistics and KPIs
UC-A03	Manage Courses	Add, edit, publish, delete courses
UC-A04	Upload Lecture Content	Add modules, PDFs, video links
UC-A05	Manage Students	View, search, edit, block student accounts
UC-A06	Approve Enrollment	Verify payment and activate course access
UC-A07	Generate Certificate	Trigger certificate creation and delivery
UC-A08	Manage Job Listings	Post, edit, and archive job/internship listings
UC-A09	View Revenue Reports	Generate and export payment/revenue analytics
UC-A10	Manage Website Content	Edit banners, pages, testimonials, FAQs
UC-A11	Send Notifications	Bulk/individual email and SMS to students
UC-A12	Manage Board Members	Add/edit board member and mentor profiles

Chapter 4

User Module

4.1 Overview

User Module

The **User Module** is the student-facing interface of InternshipWala. It allows students from colleges across India to register, browse and enroll in internship programs, access learning content, track their progress, and download their completion certificates.

4.2 User Registration

4.2.1 Registration Flow

1. User visits <https://www.internshipwala.com/verify>
2. Fills in the registration form with personal details.
3. System sends an **OTP** to the registered mobile number / email.
4. User enters OTP for verification.
5. Account is created and user is redirected to complete the profile.
6. User can now log in.

4.2.2 Registration Form Fields

tablehead		
Full Name	Student's complete name	Yes
tablerow Email ID	Valid email for communications and login	Yes
Mobile Number	Contact number for OTP and notifications	Yes
tablerow Password	Account password (min 8 characters)	Yes
College Name	Name of institution currently enrolled in	Yes
tablerow Course/Stream	Academic program (B.Tech, MBA, BCA, etc.)	Yes
Year of Study	Current academic year	Yes
tablerow State/City	Location of the student	Yes
Referral Code	Optional referral/discount code	No

4.2.3 Registration Rules

- Students must be above 14 years of age.
- Only one account per person is allowed.
- False information may result in account suspension.
- Contact information must be updated within 48 hours of any change.
- Passwords and usernames must not be shared with others.

4.3 User Login

4.3.1 Login Process

1. User visits the homepage and clicks **Login**.
2. Enters registered **Email ID** and **Password**.
3. Optionally checks **Remember Me** for persistent session.
4. On success: redirected to the **Student Dashboard**.
5. On failure: error message displayed with retry option.
6. **Forgot Password** link sends reset email to registered ID.

4.4 Student Dashboard

The dashboard is the central hub for the student after login.

4.4.1 Dashboard Sections

tablehead

My Courses	List of enrolled/completed courses with status
table row Lecture Content	Access to modules, PDFs, and video links
My Assignments	View and submit assignments and quizzes
table row My Certificates	Download completed course certificates
Payment History	View past transactions and fee receipts
table row Notifications	Platform announcements and personal alerts
Edit Profile	Update personal details and profile photo
table row Support/Help	Contact support via phone call or video call

4.5 Course Browsing and Enrollment

4.5.1 Course Discovery

Students can discover internship programs through:

- **Navigation Menu:** Department-wise course listing (CSE, Mechanical, Civil, etc.)
- **Homepage Banners:** Featured and newly launched programs
- **Search:** Keyword search for course names
- **Job Section:** Paid internship listings

4.5.2 Course Details Page

When a student clicks on a course, they see:

1. Course title, description, and objectives
2. Duration options (2/4/6/8/12/15 weeks or months)
3. Corresponding fee for each duration
4. Syllabus / module breakdown
5. Skills covered and tools used
6. Certificate details
7. Student testimonials and reviews
8. **Apply Now / Enroll Button**

4.5.3 Enrollment Flow

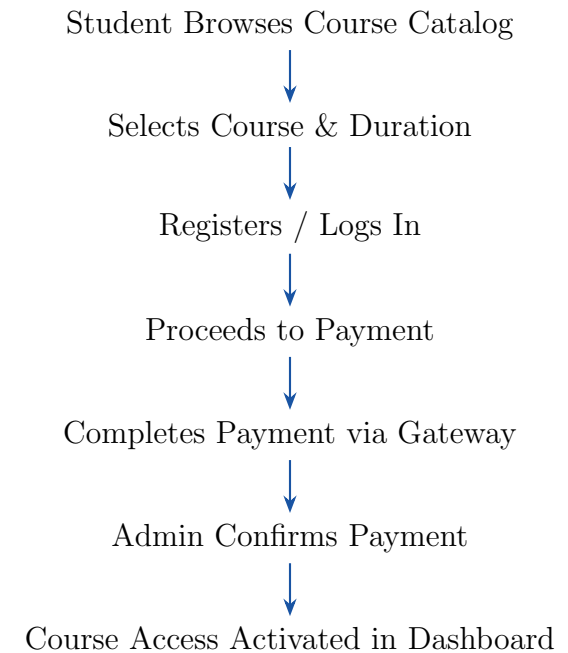

Figure 4.1: Course Enrollment Workflow

4.6 Learning Experience

4.6.1 Lecture Content Access

- Students access course modules sequentially.
- Each module contains lecture notes, PDFs, and/or video links.
- Content is available 24/7 at the student's own pace.
- Students can revisit previous modules anytime.

4.6.2 Assignments and Quizzes

tablehead	
Practice Tests	Conceptual MCQ tests after each module
tablerow Assignments	Practical coding and project-based tasks
Quizzes	Timed assessments to test understanding
tablerow Final Project	Capstone project submission at course end
Exercises	Hands-on coding exercises embedded in modules

4.6.3 Progress Tracking

- Progress bar for each enrolled course

- Module-wise completion status (completed / in progress / not started)
- Assignment submission status
- Overall course completion percentage

4.7 Payment Module (User Side)

4.7.1 Payment Options

- Online payment via integrated payment gateway (Debit/Credit Card, Net Banking, UPI)
- The training fee is mandatory for course access.
- Payment gateway fee deducted in case of refund.

4.7.2 Refund Policy

Refund is only applicable in the following cases:

- Course does not start within one week of registration.
- Student is unsatisfied after the first module only (before second module is unlocked).
- No lecture content is provided during the course duration.

Payment gateway charges will be deducted from the refunded amount.

4.8 Certificate Download

1. Student completes all modules and assignments.
2. System marks course as **Completed**.
3. Certificate is generated and made available in the **Dashboard**.
4. Student clicks **Download Certificate** to get the PDF.
5. A unique **Certificate ID** can be used for online verification.
6. For hard copy: student can request one for a nominal courier fee.

4.9 Support System

tablehead

Phone Support	Customer Care: +91-7070436444
tablerow Email Support	career.internshipwala@gmail.com
Video Call	On-demand support via video call
tablerow Social Media	Facebook, Instagram, Twitter for announcements
FAQs	In-platform FAQ section for self-help

4.10 Study Abroad Feature

Students can also access **Study Abroad** programs offered in partnership with international institutions. Features include:

- View available study abroad destinations and programs
- IELTS preparation program integrated into platform
- Submit application for overseas study programs
- Guidance on admission, visa, and international placement

4.11 User Module — Use Case Summary

tablehead		
UC-U01	Register Account	New student signs up on the platform
tablerow UC-U02	Verify Account	OTP verification of email/mobile
UC-U03	Login	Existing student logs into the system
tablerow UC-U04	Browse Courses	View available internship programs
UC-U05	View Course Details	See syllabus, duration, fee, and benefits
tablerow UC-U06	Enroll in Course	Select and pay for an internship program
UC-U07	Access Lecture Content	View module PDFs, videos, and notes
tablerow UC-U08	Submit Assignments	Complete and submit quizzes and projects
UC-U09	Track Progress	Monitor course completion percentage
tablerow UC-U10	Download Certificate	Get PDF certificate after course completion
UC-U11	Update Profile	Edit personal and academic information
tablerow UC-U12	View Payment History	Access fee receipts and transaction records
UC-U13	Apply for Jobs	Browse and apply for listed jobs/internships
tablerow UC-U14	Explore Study Abroad	View and apply for international programs
UC-U15	Contact Support	Reach out via phone, email, or video call

Chapter 5

Database Design

5.1 Entity Relationship Overview

The following are the key database entities in the InternshipWala system:

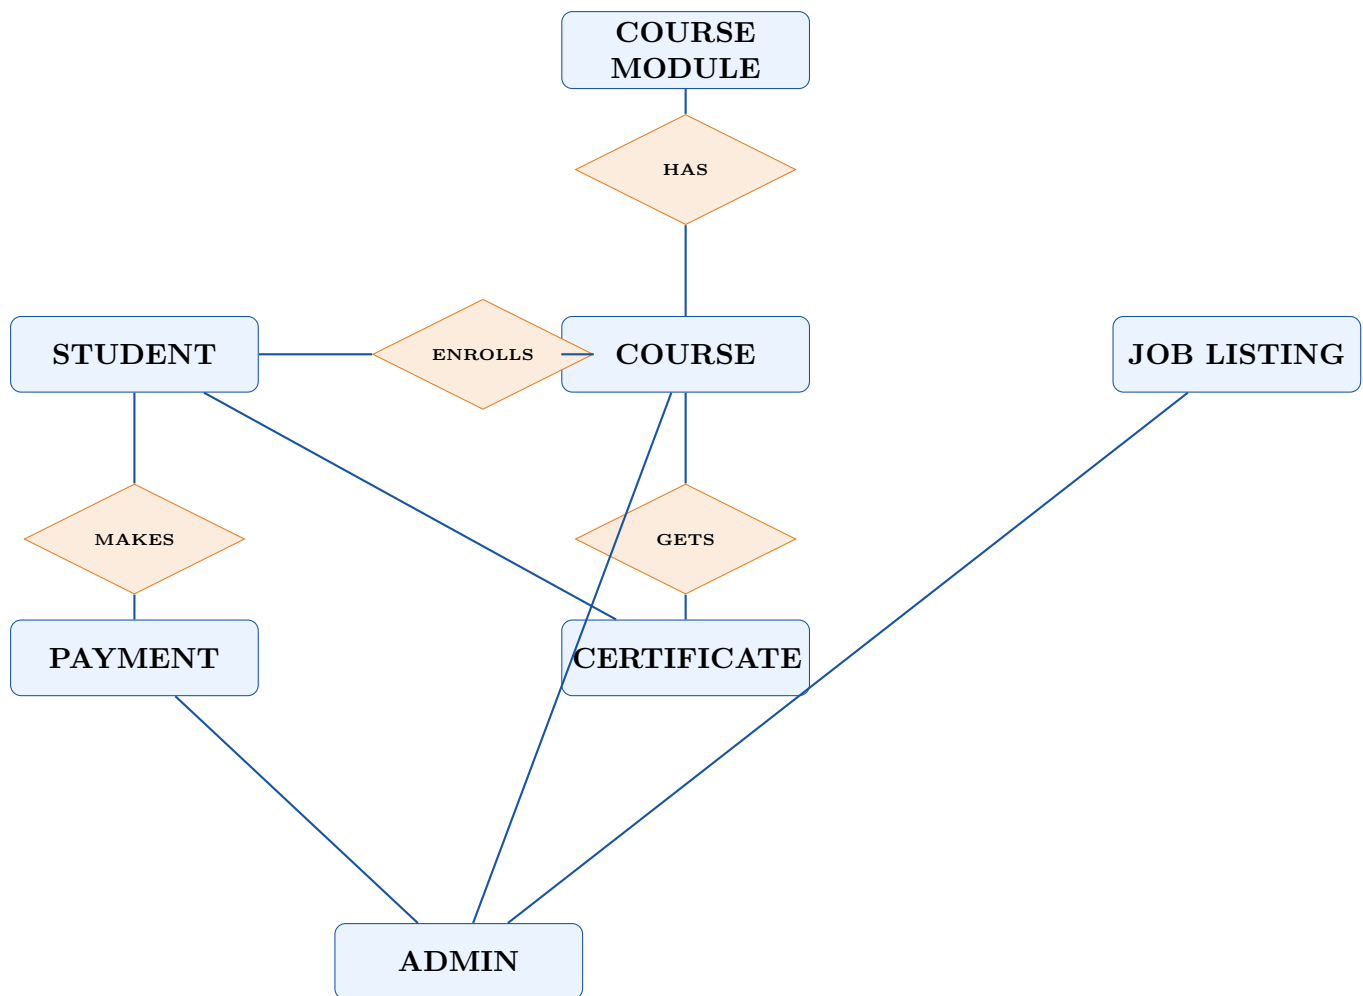

Figure 5.1: Simplified ER Diagram — InternshipWala

5.2 Key Database Tables

5.2.1 Students Table

tablehead		
student_id	INT (PK, AI)	Unique student identifier
tablerow full_name	VARCHAR(100)	Student's full name
email	VARCHAR(100)	Unique email address
tablerow mobile	VARCHAR(15)	Mobile number
password_hash	VARCHAR(255)	Encrypted password
tablerow college	VARCHAR(200)	College/institution name
stream	VARCHAR(100)	Academic stream/program
tablerow year_of_study	INT	Current academic year
state	VARCHAR(100)	State of residence
tablerow is_verified	TINYINT	OTP verification status
created_at	TIMESTAMP	Registration date/time

5.2.2 Courses Table

tablehead		
course_id	INT (PK, AI)	Unique course identifier
tablerow title	VARCHAR(200)	Course title
description	TEXT	Detailed course description
tablerow category	VARCHAR(100)	Department/category
duration_weeks	VARCHAR(50)	Available durations (e.g., 4,6,8)
tablerow fee	DECIMAL	Course fee (per duration)
is_active	TINYINT	Published status
tablerow created_by	INT (FK)	Admin who created the course
created_at	TIMESTAMP	Creation date

5.2.3 Enrollments Table

tablehead		
enrollment_id	INT (PK, AI)	Unique enrollment ID
tablerow student_id	INT (FK)	Reference to Students table
course_id	INT (FK)	Reference to Courses table
tablerow duration	INT	Selected duration in weeks
fee_paid	DECIMAL	Amount paid
tablerow payment_status	ENUM	pending / confirmed / rejected
enrolled_at	TIMESTAMP	Enrollment date
tablerow access_active	TINYINT	Whether course access is active

5.2.4 Certificates Table

tablehead		
cert_id	INT (PK, AI)	Unique certificate ID
tablerow student_id	INT (FK)	Reference to Students table
course_id	INT (FK)	Reference to Courses table
tablerow certificate_no	VARCHAR(50)	Unique certificate number
issued_date	DATE	Date of certificate issuance
tablerow pdf_path	VARCHAR(255)	File path of generated PDF

Chapter 6

Security and Compliance

6.1 Authentication and Authorization

tablehead	
Password Storage	Hashed (MD5/bcrypt), never stored in plain text
tablerow Session Management	PHP sessions with expiry timeout
OTP Verification	Mobile/email OTP during registration
tablerow Role-Based Access	Admin and User roles with separate access levels
CSRF Protection	CSRF tokens on all sensitive forms
tablerow Input Validation	Server-side sanitization to prevent SQL injection

6.2 Platform Policies

- **Age Restriction:** Platform usage restricted to users above 14 years.
- **Account Limit:** Only one account per individual is permitted.
- **Content Ownership:** All lecture content and materials are proprietary.
- **User Conduct:** No offensive, objectionable, or illegal content is allowed.
- **Data Accuracy:** Users must provide authentic information; false data leads to account suspension.
- **Confidentiality:** Passwords must not be shared; accounts are non-transferable.

Chapter 7

Non-Functional Requirements

7.1 Performance

tablehead	
Page Load Time	≤ 3 seconds on standard broadband
Uptime	99.5% monthly availability
Concurrent Users	Support for 1000+ simultaneous users
Certificate Gen	≤ 5 seconds for PDF generation

7.2 Usability

- Responsive design for both desktop and mobile browsers
- Intuitive navigation accessible to non-technical users
- Clear error messages and validation feedback
- Multilingual potential (English primary, Hindi partial)

7.3 Scalability

- Modular PHP codebase supports addition of new courses/features
- MySQL database designed for horizontal scaling
- CDN-ready for media content delivery

Chapter 8

Conclusion

This document has provided a comprehensive technical and functional documentation of the **InternshipWala Website**, covering both the **Admin Module** and the **User (Student) Module**.

Summary

- **Admin Module** empowers administrators to manage every aspect of the platform — from course content and student profiles to payments, certificates, job listings, and website content.
- **User Module** offers students a seamless journey from registration to course completion — including browsing programs, enrolling, learning at their own pace, completing assessments, and downloading their official certificates.
- The platform is built with a PHP/MySQL stack, responsive Bootstrap frontend, and integrates email/SMS notifications and a payment gateway.
- It is registered under the Ministry of MSME, Govt. of India and accredited by IAS, establishing its credibility as India's premier online internship training platform.
